VIDEO INSTALLATION 2'53

TWO CHANNELS, WALL PROJECTIONS

2013

One of the "phenomena" of modern Azerbaijani architecture are the walls, rapidly emerged in recent years - whimsical in design, constructed in granite and marble, overlapping approaches to the sea and transformed the skyline at best in the "dotted" line, which are the defenses of private houses or architectural and decorative projects for the development of semi-free spaces of Absheron. Globally, the world in the third millennium is committed to an open society, without limitation the rights to liberty, to equality of views, opportunities, and the right to choose to express themselves ... It seems paradoxical nature of any "walling" today...
